

Safety Data Sheet

according to WHS Regulations

Printing date 26.10.2020

Revision: 23.10.2020

1 Identification

Product Name: TITAN AMINE 720 HERBICIDE**Other Means of Identification:** Mixture**Recommended Use of the Chemical and Restriction on Use:** Agricultural herbicide.**Details of Manufacturer or Importer:**Titan Ag Pty Ltd
15/16 Princes Street
Newport NSW 2106**Phone Number:** 02 9999 6655**Emergency telephone number:** 02 9999 6655

2 Hazard(s) Identification

Hazardous Nature:

Not subject to the ADG Code when transported in Australia by Road or Rail in packages 500kg(L) or less; or IBCs (refer to SP AU01).

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.

corrosion

Serious Eye Damage/Irritation 1 H318 Causes serious eye damage.

Acute Toxicity (Oral) 4

H302 Harmful if swallowed.

Skin Sensitisation 1

H317 May cause an allergic skin reaction.

STOT SE 3

H335 May cause respiratory irritation.

Aquatic Chronic 3

H412 Harmful to aquatic life with long lasting effects.

Signal Word Danger**Hazard Statements**

H302 Harmful if swallowed.

H318 Causes serious eye damage.

H317 May cause an allergic skin reaction.

H335 May cause respiratory irritation.

H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P264 Wash thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P271 Use only outdoors or in a well-ventilated area.

P272 Contaminated work clothing should not be allowed out of the workplace.

P273 Avoid release to the environment.

P280 Wear protective gloves / eye protection / face protection.

(Contd. on page 2)

Safety Data Sheet

according to WHS Regulations

Printing date 26.10.2020

Revision: 23.10.2020

Product Name: TITAN AMINE 720 HERBICIDE

(Contd. of page 1)

- P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
- P302+P352 IF ON SKIN: Wash with plenty of water.
- P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310 Immediately call a POISON CENTER/doctor.
- P321 Specific treatment (see on this label).
- P330 Rinse mouth.
- P362+P364 Take off contaminated clothing and wash it before reuse.
- P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
- P403+P233 Store in a well-ventilated place. Keep container tightly closed.
- P405 Store locked up.
- P501 Dispose of contents/container in accordance with local/regional/national regulations.

3 Composition and Information on Ingredients

Chemical Characterization: Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Hazardous Components:	
CAS: 94-75-7	(2,4-Dichlorophenoxy)acetic acid (ISO) <75%
<div style="display: flex; align-items: center;"> ⚠ Serious Eye Damage/Irritation 1, H318; ⚠ Acute Toxicity (Oral) 4, H302; Skin Sensitisation 1, H317; STOT SE 3, H335; Aquatic Chronic 3, H412 </div>	

4 First Aid Measures

Inhalation:

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if breathing problems develop.

Skin Contact:

In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.

Eye Contact:

In case of eye contact, rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Seek immediate medical attention.

Ingestion:

If swallowed, do not induce vomiting. Immediately rinse mouth with water. Give a glass of water. Never give anything by mouth to an unconscious person. Seek medical attention.

Symptoms Caused by Exposure:

Inhalation: May cause respiratory irritation.

Skin Contact: May cause an allergic skin reaction. May cause skin irritation, including itchiness and redness.

Eye Contact: Causes serious eye damage including stinging, redness, watering which may become copious, swelling of the eyelids and blurred vision. Prolonged exposure or delayed treatment is likely to cause permanent damage.

Ingestion: Harmful if swallowed. May cause irritation of the mouth area including a burning sensation and reddening of the mouth and throat.

5 Fire Fighting Measures

Suitable Extinguishing Media: Use fire extinguishing methods suitable to surrounding conditions.

Specific Hazards Arising from the Chemical:

If heated to dryness, followed by further strong heating, hazardous combustion products include carbon dioxide, carbon monoxide, nitrogen compounds, oxides of nitrogen, hydrogen cyanide gas (in reducing atmospheres), chloride gas, other chlorine compounds and smoke.

Product is not flammable.

Containers close to fire should be removed only if safe to do so. Use water spray to cool fire exposed containers.

Prevent run-off from fire fighting entering drains or water courses.

HAZCHEM Code: •3Z

Special Protective Equipment and Precautions for Fire Fighters:

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

6 Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures:

Wear chemical resistant gloves, protective clothing, protective goggles and safety boots. Use approved respiratory protection if there is a significant chance mists or vapours will build up during cleaning. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Ensure adequate ventilation.

Environmental Precautions:

In the event of a major spill, prevent spillage from entering drains or water courses.

Inform respective authorities in case of major spill into water course or sewage system.

Methods and Materials for Containment and Cleaning Up:

Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal.

7 Handling and Storage

Precautions for Safe Handling:

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours. Use only outdoors or in a well-ventilated area.

Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet.

Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:

Store in a cool, dry and well ventilated area. Protect from direct sunlight. Keep container tightly closed. Store in the original container. Keep away from acids and oxidising agents.

8 Exposure Controls and Personal Protection

Exposure Standards:

CAS: 94-75-7 (2,4-Dichlorophenoxy)acetic acid (ISO)

WES	TWA: 10 mg/m ³
	Sen

Safety Data Sheet

according to WHS Regulations

Printing date 26.10.2020

Revision: 23.10.2020

Product Name: TITAN AMINE 720 HERBICIDE

(Contd. of page 3)

Engineering Controls:

Ensure adequate ventilation of the working area. If natural ventilation is inadequate, use of a fan is suggested.

Respiratory Protection:

Respiratory protection is not required under normal use conditions. If unsure, see Australian Standards AS/NZS 1715 and 1716 for more information.

Skin Protection:

PVC gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information.

When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Impervious occupational protective clothing, including apron, covering all skin areas (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See Australian/New Zealand Standard AS/NZS 4501 for more information.

Eye and Face Protection:

Eye and face protectors for protection against splashing materials or liquids. See Australian/New Zealand Standard AS/NZS 1337 for more information.

9 Physical and Chemical Properties

Appearance:

Form:	Liquid
Colour:	Dark brown
Odour:	Mild ammonia-like odour.

Odour Threshold: No information available

pH-Value: No information available

Melting point/freezing point: <0 °C

Initial Boiling Point/Boiling Range: 110 °C (at 100kPa)

Flash Point: No information available

Flammability: Product is not flammable.

Decomposition Temperature: No information available

Explosion Limits:

Lower: No information available

Upper: No information available

Vapour Pressure at 20 °C: 2.37 kPa (water vapour pressure)

Density: No information available

Relative Density: No information available

Vapour Density: As for water.

Evaporation Rate: No information available

Solubility in Water: Completely soluble.

Partition Coefficient (n-octanol/water): No information available

Viscosity: No information available

10 Stability and Reactivity

Possibility of Hazardous Reactions: Hazardous polymerisation will not occur.

Chemical Stability: Stable at ambient temperature and under normal conditions of storage and use.

(Contd. on page 5)

Safety Data Sheet

according to WHS Regulations

Printing date 26.10.2020

Revision: 23.10.2020

Product Name: TITAN AMINE 720 HERBICIDE

(Contd. of page 4)

Conditions to Avoid: Direct sunlight.

Incompatible Materials: Acids and oxidising agents.

Hazardous Decomposition Products:

If heated to dryness, followed by further strong heating, hazardous combustion products include carbon dioxide, carbon monoxide, nitrogen compounds, oxides of nitrogen, hydrogen cyanide gas (in reducing atmospheres), chloride gas, other chlorine compounds and smoke.

11 Toxicological Information

Toxicity:

LD50/LC50 Values Relevant for Classification:

CAS: 94-75-7 (2,4-Dichlorophenoxy)acetic acid (ISO)

Oral	LD50	370 mg/kg (rat)
Dermal	LD50	1,500 mg/kg (rat)

Acute Health Effects

Inhalation: May cause respiratory irritation.

Skin: May cause an allergic skin reaction. May cause skin irritation, including itchiness and redness.

Eye:

Causes serious eye damage including stinging, redness, watering which may become copious, swelling of the eyelids and blurred vision. Prolonged exposure or delayed treatment is likely to cause permanent damage.

Ingestion:

Harmful if swallowed. May cause irritation of the mouth area including a burning sensation and reddening of the mouth and throat.

Skin Corrosion / Irritation: Based on classification principles, the classification criteria are not met.

Serious Eye Damage / Irritation: Causes serious eye damage.

Respiratory or Skin Sensitisation: May cause an allergic skin reaction.

Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.

Carcinogenicity:

(2,4-Dichlorophenoxy)acetic acid (ISO) is classified by IARC as Group 2B - Possibly carcinogenic to humans.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Single Exposure: May cause respiratory irritation.

Specific Target Organ Toxicity (STOT) - Repeated Exposure:

Based on classification principles, the classification criteria are not met.

Aspiration Hazard: Based on classification principles, the classification criteria are not met.

Chronic Health Effects: No data associated with long term health effects.

Existing Conditions Aggravated by Exposure: No data available.

Additional toxicological information:

The Australian Acceptable Daily Intake (ADI) for (2,4-Dichlorophenoxy)acetic acid (ISO) for a human is 0.01 mg/kg/day, set for the public for daily, lifetime exposure. This is based on the NOAEL of 1 mg/kg/day, the level determined to show no effects during long term exposure for the most sensitive indicators and the most sensitive species.

(Ref: Australian Pesticides and Veterinary Medicines Authority, 'Acceptable Daily Intakes for Agricultural and Veterinary Chemicals', 2020).

12 Ecological Information

Ecotoxicity:

Aquatic toxicity: Harmful to aquatic life with long lasting effects.

Persistence and Degradability: No data available on finished product.

Bioaccumulative Potential: No data available on finished product.

Mobility in Soil:

No data available on finished product.

Other adverse effects: No further relevant information available.

13 Disposal Considerations

Disposal Methods and Containers: Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration:

Please consult your state Land Waste Management Authority for more information.

14 Transport Information

UN Number	Not subject to the ADG Code when transported in Australia by Road or Rail in packages 500kg(L) or less; or IBCs (refer to SP AU01).
ADG IMDG, IATA	Not regulated. UN3082
Proper Shipping Name ADG IMDG, IATA	Not regulated. ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
Dangerous Goods Class ADG Class: IMDG Class:	Not regulated. 9 Miscellaneous dangerous substances and articles.
Packing Group: ADG IMDG, IATA	Not regulated. III
Hazchem Code:	•3Z
Special Provisions:	247, 331, 335, 375, AU01
Limited Quantities:	5L
Packagings & IBCs - Packing Instruction:	P001, IBC03, LP01
Packagings & IBCs - Special Packing Provisions:	PP1

Safety Data Sheet

according to WHS Regulations

Printing date 26.10.2020

Revision: 23.10.2020

Product Name: TITAN AMINE 720 HERBICIDE

(Contd. of page 6)

Portable Tanks & Bulk Containers - Instructions: T4**Portable Tanks & Bulk Containers - Special Provisions:** TP1, TP29

15 Regulatory Information

Australian Inventory of Chemical Substances:

CAS: 94-75-7 (2,4-Dichlorophenoxy)acetic acid (ISO)

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) - Poison Schedule:

Poisons Schedule: 6

Australia: Priority Existing Chemicals

None of the ingredients is listed.

16 Other Information

Date of Preparation or Last Revision: 23.10.2020**Prepared by:** MSDS.COM.AU Pty Ltdwww.msds.com.au**Abbreviations and acronyms:**

ADG: Australian Dangerous Goods

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

CAS: Chemical Abstracts Service (division of the American Chemical Society)

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

IARC: International Agency for Research on Cancer

STEL: Short Term Exposure Limit

TWA: Time Weighted Average

NES: National Exposure Standard (Safe Work Australia - Workplace Exposure Standards For Airborne Contaminants)

Acute Toxicity (Oral) 4: Acute toxicity - oral – Category 4

Serious Eye Damage/Irritation 1: Serious eye damage/eye irritation – Category 1

Skin Sensitisation 1: Skin sensitisation, Hazard Category 1

STOT SE 3: Specific target organ toxicity (single exposure) – Category 3

Aquatic Chronic 3: Hazardous to the aquatic environment, long-term (Chronic). Category 3

Disclaimer

This SDS is prepared in accord with the Safe Work Australia document "Code of Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals - May 2018"
