DIRECTIONS FOR USE

SITUATION	RATE	CRITICAL COMMENTS
Minimise antagonism to tank mixes with flowable herbicides Improve performance under adverse environmental conditions	2L/100L of spray solution	1. Half fill spray tank with clean water and start agitation.
		2. Add Titan AMS Liquid Herbicide Adjuvant liquid through top opening of spray tank.
		3. With agitation still running, add the required flowable herbicide to the tank and mix thoroughly.
		4. Add the required amount of glyphosate based product and the remaining water, mix thoroughly.
		Add surfactant, if required, near the end of the filling process to minimize foaming.
		Always maintain adequate agitation during application and use the tank mix promptly.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

TITAN AMS Liquid Herbicide Adjuvant should be used with non-selective herbicides only, as with some selective herbicides use may result in loss of selectivity and therefore crop damage. Ammonium sulphate may be corrosive to metal parts of the sprayer.

Thoroughly flush tanks, pumps and nozzles with water after use.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the containers 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government legislation. DO NOT burn empty containers.

For refillable containers: Empty contents fully into application equipment. Close all valves and return to the point of supply for refill or storage.

FIRST AID

If poisoning occurs contact a Doctor or Poisons Information Centre Phone Australia 131126; New Zealand 0800 764 766.
