GENERAL INSTRUCTIONS

TITAN Spray Grade Ammonium Sulphate Herbicide Adjuvant should be used with non-selective herbicides only, as with some selective herbicides use may result in loss of selectivity and therefore crop damage. Ammonium Sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with water after use.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed original container in a dry, cool well-ventilated area out of direct sunlight. DO NOT dispose of undiluted chemicals on-site. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked out and set up for this purpose clear of waterways, desirable vegetation and tree roots.
