

OPTIFERT

Custom Blend 22-5-8 25KG

OPTIFERT

Custom Blend 22-5-8 Compound Fertiliser

Benefits of OptiFert

-  Little to no dust during handling and spreading
-  Increased solubility
-  Lower salt index

This is a selected fertiliser in which some segregation of the ingredients may occur and may lead to some variation from the stated analysis.

Close to full fertiliser details may vary by +/- 1.5%

HEAVY METALS
This fertiliser contains heavy metal impurities. It may result in an accumulation of mercury in the soil and may lead to residue limits in fish and animal products in excess of the maximum level specified by the Australian New Zealand Food Standards Code. Users are advised to consult the manufacturer for further details.

USE DIRECTIONS

It is generally recommended that fertiliser not be stored in a bag. If it is necessary to store the fertiliser in a bag, it should be for a short period of time, i.e. temporary storage immediately prior to use. Refer to these Pests, Guidelines Notes for Storing Fertilisers in Bags for more detail on this design, management and safety.

This product should not be stored in a bag.

WARNING - DO NOT STORE FERTILISER IN BAGS**

Blended fertiliser for use in horticulture.

Blended fertiliser is for dry application to the soil. Do not use in water.

It is generally recommended that fertiliser not be stored in a bag. If it is necessary to store the fertiliser in a bag, it should be for a short period of time, i.e. temporary storage immediately prior to use.

Refer to these Pests, Guidelines Notes for Storing Fertilisers in Bags for more detail on this design, management and safety.

Some fertiliser products may contain insecticides. Always contact your fertiliser supplier before use. Fertiliser may burn and/or damage pasture and crops, and affect the health of grazing animals. Avoid direct ingestion of fertiliser, not for use by livestock. This product is not for use on lawns. For further information, refer to the independent agronomic advice sheet that should be obtained before using this product.

SAFETY DIRECTIONS
Avoid ingestion and making product. Contact with the eyes and skin occurs. Protective clothing, gloves and dust masks should always be worn when handling this product. For more safety details, refer to the safety data sheet for this product or to the MSDS.

This product can be corrosive to metal. Clean equipment after use and rinse and equipment used to transport, store and handle fertiliser should follow manufacturer's maintenance advice.

CARE OF EQUIPMENT

This label complies with the Fertiliser Australia National Code of Practice for Fertiliser Description and Labelling.

SAFETY DATA SHEET

Additional information is listed in the safety data sheet (SDS). A safety data sheet can be obtained from the manufacturer or from the supplier on an request. Call Customer Service on 08 9999 6555 or visit www.optifert.com.au

CONDITIONS OF SALE: OPTIFERT AG P/L shall not be liable for any loss (by damage or death) whether consequential or otherwise arising in connection with the sale, supply, use or application of this product. The supply of this product is on the express condition that the user shall be responsible for the safe use of the product, and for ensuring that the user is using the same and every person dealing with this product does so at his own risk and liability.
